Fig. 37. Carroll, is our authorized agent for the city.

NASHVILLE, TENN.

FRIDAY MORNING, AUGUST 19, 1853, CHAPTER OF ACCIDENTS.

On the 2d, a train of cars on the Philadelphia and | tion. Belvidere Railroad was thrown off the track, by which ten men were killed and fifteen badly wound-

But last week was the week of weeks. It opened with a collision on the Baltimore and Ohio Railroad. | gua whereby an engineer and conductor were killed. Next comes an accident on the New York and New Haven Railroad, from a crevasse, by which the engine was thrown off, the engineer killed, and a brakeman injured. On the same day, the 9th, occurred a collision on the Camden and Amboy Railroad (between Philadelphia and New York.) by which four persons were killed and six wounded -The trains were passing round a sharp curve; one of them out of time and going furiously to make up deficiencies. Last and worst of all, we have by telegraph an account of a horrible tragedy on the Boston and Worcester Railroad, near the former place. It nots to shame all the small affairs before mentioned, and challenges comparison with the were killed and thirty wounded. What aggravates the horror of the affair, is that, apparently, both trains were out of time, and trying to save themselves from a petty censure at the risk of a cargo human lives. The character which the North arrogates to it-

self, of a more refined mixture of humanity and intelligence than is to be found else where, is sadly illustrated by these swiftly recurring scenes of destruction on their great highways. Nearly all of them, from the excessive desire for the reputation of quick travelling, and the looking at the end without regard to the means. Those who ought to be the responsible managers of the Roads, are involved | V in many speculations at once, and the care of the interests of the stockholders and the safety of the public is entrusted to subordinates who neither know their responsibility, nor respect the trust committed to them. The spirit of racing, and furious running against time, is lostered by the public and by the press daily, while once a month the same public and press denounce the consequences as mur-

The Railroads at the North seem almost without law, at least law that is recognised and obeyed,-Hardly any of them have a double track, yet there is scarcely one of them where there is a distinct est and fluest quality, and of direct importations. regulation to determine what a train shall do which is out of time. We judge thus, at least, from the character of the collisions. Besides, on the oldest and most frequented Roads, sharp curves, which might easily be obviated, are allowed to stand in spite of the terrible lessons of experience, like pitfalls in the way of the traveller, the end of which too often is death.

were present yesterday afternoon, by invitation, at the regularly organized convention of the Grand Union association of Engineers. The motives which have induced the formation of this association, are most laudable. They contemplate the instruction of a competent corps of men, to elevate the class by inculcating the best morals and imparting the best education. The engineer has a post of great hazard and involving the highest reponsibility. Not only property but the lives of the community, are in a great measure subject to his peculiar province. In the protection of his own besidiar province. In the protection of his own her the safety of the others. But to feel secure it is not only necessary that the engineer should be prused five delines, and charge to this effice. (aug.16—1 m. dent and cautions, but that he should have a thorough knowledge of his business. To impart this knowledge, to protect labor against capital, and to cicrate Engineers as a class in the social scale, by rendering them worthy of the high estimation is which a proper performance of their responsible duties would entitle them, are the aims and end of this Association. The tone of the proceedings was dignitied and temperate, though firm, and we do not he state to predict that the labors of the Association will be productive of great good.

The convention consisted of the following delecates, in addition to whom there were present the I. S. Inspector, several old and experienced steamboat officers, and others interested in navigation and New Orleans,-Bradford Scribner and Anderson

St. Louis. - John Hall and Charles De Witt. Louisville.—Aberto Baker and Win, H. Irwin. Cincinnet. - M. Tolle and Daniel Committs. Nashville,-H. H. Harrison and W. Brown.

Pittsinay, - J. C. Covle, Mobile.-Henry Johnson and J. M. Scott.

New Albany, -Samuel Draper and E. M. Angel. We took copious notes of the proceedings, the convention most kindly having its Constitution and Address read again, as the latter was just being concluded as the members of the press entered the room; but we are constrained to forego the pleasure of elaborating them, in consequence of the necessity of rendering this notice as brief as possible.

Mr. John Hall of St. Louis, was elected President of the Grand Union, and H. H. Harrison Secretary. Both gentlemen appeared admirably qualified for their respective positions. The meeting was preided over with great dignity, and the Secretary read the constitution with perfect distinctness. The President in a very clear and lucid manner

xplained the objects for which the Association was formed, and the Secretary explained his objections to a proposition to petition. Government, to amend the 5th section of the law so as to increase the amount of pressure to 130 from 110 lbs. to the ench, in justice to boats in process of construction. In conclusion he called upon Mr. Dawson tor some remarks, who made a few observations suggesrive of a delay of the proposition till it should he seen what the effect of the law will be, and how boats can accommodate the larger surface of the cylinder to the lower figure of pressure.

As the proposition will undergo the ordeal of being presented to the local associations before final action, it will scarcely be presented as a memorial to the next Congress at its first session.

The New Orleans Picayone states that Spain has been making efforts for years to have her navy equal to ours. She has been constantly counting our ships, steamers, and guns, and has kept pace with them in number. She has therefore, a formidable and well equipped navy, as large and as effectively armed as ours. Such is the Spanish confidence in the strength of this navy, that they rely upon it, in case of war, to sweep is from the seas, and carrich themselves upon the spoils of our commerce." The Government of Spain may entertain this confidence, but we venture to say it is not partaken by her seamen. Spanish mariners have had strong misgriffing on the subject of their prowess, ever since the untoward maritime expedition undertaken by Phillip in the time of Queen.

UNIVERSITY OF LOUISIANA - MEDICAL DEPARTMENT.

> H. G. FARRELL'S CELEBRATED ARABIAN LINIMENT TRIUMPHANT OVER DISEASE.

H. G. FARRELL'S GENUINE ARABIAN LINIMENT is a most extraordinary medicine, the truth of which is placed beyond doubt by the vast sales of the article and the placed beyond doubt by the vast sales of the article and the many cures being daily performed by it, which previously had resisted all other medicines and the skill of the best physicians in the world. It is composed of halsams, extracts and gams peculiar to Arabia—possessing, in a concentrated form, all their stimulating, anodyne, penetrating, unctuous and revulsive properties, and the same which, ages ago, were used by the "Sous of the Desert," with such miraculous success, in curing the diseases of both man and beast.

ad the following cure, which should of itself place H. G. FAERELL'S ARABIAN LINIMENT

far beyond any similar remedy.

Mr. H. G. Farmell-Dear Sir: Admated by a sense of Mr. H. G. Farmall—Dear Sir: Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease, which in less than six hours prostrated it to total helpleseness. The limbs became so rigid that not a joint could be bent; the flesh turned black and cold and entirely deprived of feeling; the eyes fixed, partially closed and altogether blind, following this was deafoess to all sounds; the spine became contracted and so curved that when lying on its back the head and heels only touched. Indeed, the child presented every appearance of being dead. Immediately on the attack, the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times and various rubeficient Liniments applied. A consultation of physicians was then beld, but to no purpose, the case was then brought before the Medbut to no purpose, the case was then brought before the Med-ical Society, but nothing could be suggested which had not already been done, and the doctor then told me be could do nothing more. We then commenced applying your Limitent freely over the entire length of the spine, and you may magine a parent's joy, when, after a few applications, reimagine a parent's joy, when, after a few applications, re-turning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become per-fect for near a mouth. The child is now healthy and robust as can be. Five other cases of the same kind occurred pre-viously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered.

New York Liniment Hand been used they would Peoria, March 1st, 1851.

Lock out for Counterfeits!

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and whole sale druggist, No. 17 Main street, Peoris, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrapper, all others are counterfeits.

Just received by | welted, aug16 | RAMAGE & CHURCH, No 42, College st. NASHVILLE LADIES' COLLEGE.

THE act to incorporate the Nasiwille Ladies College was passed February 18th, 1862; and confers ample powers for all literary purposes, and also the right to fill all vacancies that occur in the Board of Trustees.

The course of study adopted is similar to that adopted in the best Colleges for young gentlemen, but not so extensive in the departments of Language and Mathematics.

We hold that the mental training of boys and girls should be similar, and that they should study the same branches, making some allowances for the ornamental branches in one case, and pressing the solid branches a little further in the other, having their future vocation in view.

LATIN being the foundation of the English, and the key to the Italian, the Spanish and the French, is taught with-out additional charge, and will, after the present session, be required of all, unless excused for special reasons.

The MUSICAL DEPARTMENT is conducted by gentlemen of experience and established reputation.

DRAWING AND PAINTING are taught by a lady of he first ability, and who has been eminently successful in his department,
The COLLEGE YEAR opens on the 1st of September,
and closes on the last Thursday of June. At which time the

President and Trustees confer degrees on such as have passed a satisfactory examination, and have not incurred the censure of the Institution. Terms per Session of five Months. Board, &c., in private families. \$7.5 Tuition in Preparatory classes. 10, 15, 20 Tuition in College classes. 25 Music, Piano and Guitar, extra, each. 36 Drawing and Painting. 15

WE would call the attention of Country Merchants, about to visit the city for their fall supplies, to our large and select assortment. They will find the latest styles of Gents' dress hats, of the finest Moleskin and Beaver, with all the new styles of soft hats suited to the coming season, and at prices that will make it desirable to call.

WATERFIELD & WALKER, Fashionable Hatters, No. 26, west side Public Square, next to Gowdey's, nug! 3

and good riusing they will be perfectly clean and beautifully bleached, and without injury to the most delicate fabric. The cost of these Soaps is no more than those ordinarily used, and besides this, the great wear and tear of Clothing consequent upon the old method of hard rubbing upon a Board, Machine, Pounding, Barrel, &c. &c., is wholly avoid-ed, and fuel being entirely dispensed with, an immense saving is thus made.

By applying it to your Capets, it will remove all grease and spots of dirt, without in the least injuring their color or

Merinos, Silks, Shawls, &c. may be washed with perfect safety, Cotton Goods, Prints of any color that will fade in water alone, when washed with these Soaps according to the directions will not change, but remain firm, and the colors rendered more permanent.

For renoving grease from floors, or from any article of Clothing it is invaligable—and for washing Gilding, Mirrors, Maps, Pictures, Furniture, Dishes, Lamps, Silver Ware, &c. Ac. it is superior to any other S. aps, leaving the goods soft, and free from any order. The attention of Woolen Manuschurgers is particularly called to these facts.

Julius, Cobblers, Punches, &c. This establishm tept open, from and after Tuesday night, 2d day for the accommodation of those running late a something fine to eat and drink at all hours of night.

WISH to dispose of my Farm on Will Creek, 41/2 miles from Nashville, about 40 rods from the Mur-THE AMERICAN SOAP COMPANY.

The AMERICAN SOAP COMPANY.

The Seaps are prescuted to the public as the best fabor-suring Articles ever discovered. And every wey worthy of the fullest consideration. They do the work of the Laundry in Cold Warfar, either SOFT, HARD or SALT, dispensing entirely with boiling, pounding, rubbing, Ac. Ac., consequently a large amount of fuct, and wear and tear of clothing is saved, and not one-fourth the amount of labor is required to do the washing of a family.

The tendency of these Soaps is to soften the Cloths and remove the durt, and in their use, the hands are made soft, the complexion clear and white. Washing is done by simply rubbing the Soap on the parts of Clothes most soiled, and placing them in water sufficient to cover them—there let them remain a few hours—then with a slight hand rubbing and good riusing they will be perfectly clean and beautifully blesched and either with a slight hand rubbing and good riusing they will be perfectly clean and beautifully blesched and either the complex of the choices of the said tarm. Terms accommodating. Title indispotable, For further particulars enquire of the choices from the More freesboro' Turnpike, adjuning the lands of Birdwell Caldwell, Minerra and Frankin Colleges, containing about to caldwell, Minerra and Frankin Colleges, containing about to caldwell, Minerra and Frankin Colleges, containing about to accers about 10 acres in wood, and the bulance under cell-tradition—with as good orchards as there are in the State, con sisting of peacles, apples, pears, grapes, plumbs, in a great variety; two never failing springs, and several chalybeate springs. The improvements are very fair—consisting of a good frame house, with porch to feet from \$100 to \$500 years, and business of it is my intention to change are localized. The order to the free short the amount of about 10 acres in wood, and from the order than and the bulance under real-tradition would be added to a peacles, apples, pears, grapes, plumbs, in a great variety; twe never f ly, as the fruit is of the choicest kind. As the wishing to dispose of it is my intention to change my location and business. I will dispose of my stock and furniture to any person wishing to purchase the said farm. Terms accommodating. Title indispotable, For further particulars enquire of L. MOSES.

ECONOMY AND CONVENIENCE.

The subscribers offer the following good and sufficien reasons why every fam ly in the South should use the Brown't from Carling Norse.

Manutactured by them and called THE TENNEEAN:

1st. it is of Southern manufacture, being made by the subscribers in the city of Nashville.

2nd. It is fuer destrable material that it must outlast three or four cast iron Stoves.

2d. It is more complete in its cooking appearatus than any 3d. It is more complete in its cooking apparatus than any 4th. It is so simple in construction that a child can use

as much fuel as a cast iron stove of the same size. 6th. In the economy of time it is important, as heated ready for use in a few minutes. 7th. Its uniform regularity, as every part of the stove heated at the same time. 8th. Its perfect reliability as we have put up over for hundred of them in this State, and no one has ever failed to give entire safisfaction. SNOW, MACKENZIE & CO. College at., Nathville
